Soothing treatments

BEFORE APPLYING LASHES
Make sure you have had a glue patch test 24 hours prior to application. Advice to blondes is to go for a tint prior to the lashes for a more natural look. This requires a separate patch test 24 hours prior to tinting. Beware of irritation if you wear contact lenses or suffer from hayfever.

AFTERCARE
Take care of your lashes to ensure that they last longer. No oily remover, mascara, curlers or rubbing your eyes. Please note that lashes take getting used to and any discomfort will subside. If your real lashes fall out naturally, your falsies will go with them leaving an uneven look. To avoid this please use the blinkbrowbar infill/removal service.

ROSE EXPRESS FACIAL £20
